

# Mobile workshop service offering engineering support for mechanical and hydraulic machinery. Available for hire by the hour, day or week

Equipment available as required:

1. Competent person with analytical, troubleshooting brain
2. Service van
3. Welder/7kW generator
4. Air compressor and air tools
5. Plasma cutter (requires both welder/generator and compressor to operate)
6. Metal working hand tools
7. 6 tonne axle stands
8. Generator (2.2kW)
9. Light equipment hand tools to 1in/24mm
10. Heavy equipment hand tools to 1¾in/46mm
11. 12V battery-powered 240V 800W inverter to power hand tools
12. Power tools (angle grinder/cutter, drill, die grinder, etc)
13. Assembly/disassembly tools (pullers, clamps, etc)
14. Manual hydraulic test gear to 250bar, hydraulic pressure gauges
15. Starter jump leads to 480amp
16. Grease gun
17. Work shelter
18. Test and diagnostic equipment on work table (infra-red thermometer, contactless tachometer, multimeter, digital calliper)
19. 48in 2 tonne farm jack
20. Bottle jacks
21. ¾in drive socket set to 46mm
22. Electrical test and repair tools
23. Ratchet winch to 1250kg
